Near Silent Cooling

Our new airflow design reduces the need for fan usage.

Powerful Hardware and Software

UniFi Switches offer a variety of features, including 10G SFP+ ports, PoE+ or PoE++ support, and Layer 3* switching capabilities.

Redundant Power System

UniFi SmartPower RPS, USP-RPS, is our PSU failover system.

Power Supply Failure

In the event of a UniFi switch power supply failure, the USP-RPS automatically supplies redundant power to the failed device.

UniFi SmartPower

One UniFi SmartPower device can support up to 6 devices until the failed device is replaced.

Touchscreen Display

The 1.3" touchscreen display allows easy monitoring and quick troubleshooting.
