Cocreator creates it.

Let your inner artist thrive with guidance from Cocreator.

Built-in D-Mic & Speaker

Enabling voice control for AI applications using the built-in D-Mic & speaker eliminates the need for external audio devices, conserving desk space and reducing clutter.

Intel® AI Playground

Offering various AI capabilities, including image creation, enhancement, and chatbot responses, all functions run locally on the PC, ensuring privacy and control over content and input.

For more information, please refer to the official Intel® website.

Mini Yet Powerful

The Cubi NUC comes with a perfect combination of Mini and Power, featuring a 0.826-liter chassis.

Maximize Space with the Versatile Cubi NUC

The Cubi NUC is perfect for spaces with limited room, featuring a 0.826-liter chassis. It can be mounted behind a monitor, on a wall, or in digital signage, freeing up desk space and creating a tidier workspace.

Tailored for Professional Users

Equipped with up to Intel® Core™ Ultra 9 Processor, it delivers faster and more reliable performance, enabling users to multitask various applications effortlessly.

Wi-Fi 7 Support

Wi-Fi 7 delivers ultra-fast speeds and increased network capacity, which is essential for efficiently managing AI workloads.

LPDDR5X Memory on Package (MOP)

LPDDR5X memory can enhance work efficiency and quality, processing large amounts of data and complex multitasking quickly and reducing waiting times and delays.

Thunderbolt 4:

A Single Cable to Serve All

The Thunderbolt 4 enables rapid data transfer up to 40 Gbps & power delivery input of up to 100W, crucial for handling large datasets in AI applications, making it an excellent choice for both charging and displaying through a single port.

3-Display Support

Supporting up to 3 displays with HDMI™-out and Thunderbolt 4 allows for increased productivity by providing more screen space to manage multiple applications simultaneously.

VESA Mountable Design

With its VESA Mountable design, the Cubi NUC Series can be easily installed in any location, providing users with greater flexibility and efficient space management in both home and office settings.

MSI Power Link

The Cubi NUC Series can be powered on using the power button on the MSI-selected monitor to bring the most convenient user experience

MSI Frozr AI PRO

MSI Frozr AI PRO cooling design enhances airflow, increases static pressure, and effectively lowers system temperatures for improved cooling and performance inside your PC.

Built for Sustainability

The Cubi NUC Series blends business-centric design with environmental responsibility - an embodiment of MSI's dedication to sustainability. By utilizing green material, PCR (Post-Consumer Recycled) plastic, ensures not only the products' durability but also commits to a greener world.

Our commitment extends to incorporating sustainable materials in both our product design and packaging. The Cubi NUC Series embodies sustainable value and heightened productivity.

Sustainably Sourced Wood Pulp with FSC Certification

FSC-certified cartons are made from sustainably sourced wood pulp, ensuring responsible forest management. This certification guarantees that the materials are renewable and low-carbon, promoting environmental sustainability.

shop.cssi.co.za | sales@cssi.co.za | +27 (11)541-9950

By using FSC-certified cartons, MSI supports sustainable practices and contributes to the preservation of forests for future generations

Renewable Energy

Since 2021, MSI has installed solar power systems in its facilities and gradually increased the proportion of purchased renewable energy.

By 2024, it has achieved a carbon reduction of over 70%, with more than 99% of the electricity used in its factories coming from renewable sources.

This demonstrates MSI's commitment to achieving net-zero sustainability by 2050.

MSI Center

The MSI Center allows for easy optimization and resource allocation to enhance software performance.

External Power Switch

The optional external power switch significantly enhances the convenience of turning on the computer. In cases where the computer is situated in a hard-to-reach area, opting for the external power switch on the desk is far superior to bending down to turn it on.

B2B Projects

Over the past years, MSI has successfully supported countless of B2B projects, including government tenders, restaurant & hotel facilitation, shopping mall navigation projects, school & university developments and professional office projects.
