With AMD® A4 dual-core processing and the ChromeOS, everything runs smoothly. Choose from thousands of education and business apps on Google Play and in the Chrome Web Store, including TinkerCAD, Expensify, LucidChart, and Dropbox.

Multitask with ease

Open as many windows as you like, run multiple apps, play high-definition videos, or stream your favorite TV shows. Whatever task you want to accomplish, the 14e Chromebook will perform smoothly—without compromising a thing.

From the classroom to the meeting room

Fast and secure, Chromebooks require little-to-no maintenance, boot up in seconds, and can run all day. Factor in the automatic updates, built-in flexibility, and an affordable price tag, and you can see why Chromebooks are now the go-to device for many schools, as well as businesses of all sizes.

Easy on the eyes

Behind the stamped aluminum shell cover, the 14” FHD display boasts a 6 mm narrow bezel, plus IPS and antiglare technology. The result is a larger, more vibrant screen with wide-angle viewing that’s less of a strain on your eyes. There’s also a touchscreen option for faster, more intuitive interaction.

No more crying over spilled coffee

The full-sized keyboard includes a sealed touchpad that can resist spills of up to 1.39 cups (330 ml). It also boasts mechanically anchored keys that stay put regardless of the bumps and knocks of daily life. Available with backlit keys, too.

Bringing people & ideas closer

The front-facing 720p HD camera comes with two microphones, making videoconferencing or chatting over Google Hangouts a breeze. What’s more, everything sounds and looks crystal clear, enabling closer collaboration—even from across the globe.

Chromebook unplugged

Fully charged, the 14e Chromebook can run for up to 10 hours*. That's more than enough juice to entertain you on your daily commute and get things done when you're at school or work. At home, simply recharge your Chromebook overnight and it’s good to go the next day.

*Battery test performed under the Google Power Load Test Tool. Individual results may vary based on use.

Built to last

The 14e Chromebook includes reinforced ports and hinges, mechanically anchored keys, and a spill-resistant keyboard. It has military-grade durability and is MIL-SPEC tested to handle all kinds of things—even being bumped or dropped from up to 29.5" (75 cm).
