DELL PRO 14 U5-235U/14FHD+/16GB/512SSD/W11P (US-KB)

Model: BTO120_PC14250_EMEA_USK

Manufacturer: DELL

Product Code: 96196

R29,277

Manufacturer's estimate: Product life cycle used in emission assessments, years: 4 | Manufacturer?s estimate: Manufacturing-related CO2 emissions, kg: 112.75 | Manufacturer?s estimate: Product life cycle CO2 emissions, kg: 144 | Short summary:
The Dell Pro 14 is designed to deliver dependable performance, professional security, and sustainability in a compact 14-inch form factor. As part of Dell?s business-focused Pro series, it combines durability with a refined aesthetic. The Platinum Silver metallic chassis provides a premium look while incorporating up to 90% recycled materials, aligning with Dell?s commitment to sustainable design.

Powered by the Intel® Core? Ultra 5 235U vPro® processor, this model integrates CPU, GPU, and NPU technologies for efficient multitasking and accelerated AI-driven workflows. The integrated 12 TOPS NPU enhances performance in everyday productivity tools and AI-assisted applications. Windows 11 Pro and the dedicated Copilot key allow instant access to Microsoft?s AI assistant for a faster and smarter workflow.

Designed with serviceability and long-term usability in mind, the Dell Pro 14 features modular components such as replaceable ports and keyboards, supporting a longer lifecycle and simplified maintenance. The chassis meets MIL-STD 810H testing for durability, ensuring reliability in mobile and office environments.

The 14-inch FHD+ 16:10 display provides 5% more workspace than traditional 16:9 panels, making multitasking and reading more efficient. With 300-nit brightness, anti-glare coating, and narrow bezels, it ensures clarity and comfort in various lighting conditions. The FHD HDR + IR webcam includes facial recognition, mechanical shutter, and TNR for sharp, private, and professional-quality video calls.

Connectivity includes Intel® Wi-Fi 6E and Bluetooth® 5.3 for high-speed wireless performance, while Thunderbolt? 4 ensures versatile data and power delivery. The device is optimized for modern business operations with built-in vPro® platform security and manageability features.
