Dell Pro 13 Plus (PB13250)

Dell Pro 13 Plus represents Dell?s fully redesigned line of professional laptops, replacing the previous Latitude 5350 series. It is equipped with Intel?s latest Core Ultra processors, offering significant improvements in performance and energy efficiency. Advanced AI capabilities enable seamless work with AI-assisted tools such as Microsoft Copilot.

The new chassis is sleek and meets the requirements of the modern work environment. The updated design improves the device?s durability and allows for easier maintenance and repairability. Additionally, the chassis meets MIL-STD testing standards, ensuring reliability and robustness.

The design of the Pro 13 Plus model also emphasizes environmental responsibility in addition to performance and reliability. Innovative materials such as low-emission aluminum and recycled plastics are used in its construction to help reduce the carbon footprint. Dell Pro 13 Plus also utilizes modular USB-C port technology that is more durable and easier to repair. This supports longevity and helps reduce unnecessary electronic waste.

Usability has also been significantly improved. Advanced connectivity options like Thunderbolt 4 and HDMI 2.1 enable efficient and versatile connectivity. In addition, AI features like Dell Optimizer and the excellent 13-inch 16:10 aspect ratio display provide even better tools for productive work. The ultra-quiet cooling technology is up to 30% quieter than the previous generation and ensures both performance and comfort during long workdays.
