

UBIQUITI UMR- ULTRA MOBILE ROUTER ULTRA

Model: UMR-ULTRA

Manufacturer: UBIQUITI NETWORKS

EAN: 810084697146

Product Code: 964595

R3,265

The Ubiquiti UniFi Mobile Router Ultra is designed to offer reliable connectivity in various environments. Featuring three external detachable antennas, it ensures strong signal reception regardless of location, making it a choice for outdoor usage or remote areas. With a wide operating temperature range of -30°C to 70°C and humidity tolerance from 10% to 90%, this router is built to withstand challenging environmental conditions while delivering stable performance. Equipped with LTE Cat 4 technology, the router supports multiple cellular bands, achieving data speeds of up to 150 Mbps. Its IoT compatibility enhances functionality, allowing seamless integration with various smart devices. Furthermore, the unit includes a mounting kit for versatile installation options, whether wall-mounted or DIN rail mounted, ensuring accessibility and convenience for users.
