EAN: 196802121644

Product Code: 96558

R6,223

Visuals that inspire

If you want a screen with impeccable resolution and color reproduction, you'll find it with Lenovo's D32u-40 Monitor. This UHD screen packs in 4K resolution in a generous 31.5-inch VA screen so you can enjoy great clarity whether you use it for work or entertainment. A 72% NTSC color gamut is designed to deliver deep blacks and vivid colors, for a rich and clear visual experience.

Plug in and play on

Effortlessly connect your laptop to see its content on a bigger screen via the monitor’s two HDMI 2.0 ports, or a DP 1.2 port, and listen to your favorite music by plugging in your speakers through the 3.5 mm audio out port. The Lenovo’s D32u-40 Monitor’s tilt function allows you to settle into your most comfortable working posture, but if you want a cleaner desk and a more minimal look, you can opt to mount it on a wall with the 100 x 100 VESA Mount.

Protects your vision

The Lenovo’s D32u-40 Monitor’s TÜV Rheinland Eye Comfort-certified technology eliminates toxic blue light for a strain-free viewing experience, and TÜV Flicker Free-certified technology prevents screen tearing, to enhance viewing comfort for those long hours of screen time. In addition, the low 4ms response time produces fluid imagery that is good for playing casual games and viewing action-packed movies.
