KSK-5210ELU

MINI KEYBOARD

Thanks to the cleverly integrated number pad, the KSK-5210ELU allows you to use all the functions of a Full-Size keyboard despite its compact design. The setting is made by toggle keys. The generous, integrated touchpad with two mouse buttons allows you to work comfortably without a PC mouse. Thanks to the warm white backlighting, the keyboard can be operated wonderfully in darkened rooms. The X-Type membrane technology also ensures quiet and comfortable typing.

SOFT BACKLIGHTING

The integrated warm white backlighting of this mini keyboard makes it easy to work in poor lighting conditions or in darkened rooms. The illumination can be easily switched on and off as needed via a button on the keyboard.

MOUSE FUNCTIONS INCLUDED

Even without a PC mouse connected, the integrated touchpad with two mouse buttons gives you all the usual mouse functions and saves valuable space at the workplace. The touchpad is very easy to operate.

SILENT TYPING

The X-Type membrane technology provides ultra-quiet typing with a responsive and comfortable writing experience. Perfect for those who like to work without distraction and do not want to disturb their colleagues.
