UHD Large Screen Signage Display with LG webOS Platform

Super High Resolution

Delivering immersive viewing experience by 4 times higher definition picture quality than FHD.

Adequate Brightness Level

The UM5K series boasts an adequate brightness level of 500 cd/m² for indoor displays, effectively showcasing content and capturing the public's attention. This makes it an adequate display solution

for marketing purposes in various settings, including meeting rooms, airports, retail outlets, and shopping malls.

High-Performance with webOS

LG webOS platform enhances user convenience with intuitive GUI and simple app development tools.

Built-in Speaker

Contents will be enriched with sound effects from built-in speakers, without the need for purchasing or installing external speakers.

Slim Design

Being slim, a closer installation to the wall is advised. Additionally, this increases the screen's immersive experience and provides a sophisticated design, improving the installed-space's décor.

Compatible with AV Control System

The UM5K series has supported Crestron Connected® for high compatibility with professional AV controls to achieve seamless integration and automated control, boosting business management efficiency.

SuperSign Solutions

SuperSign is an integrated and intuitive content management solution for creative and organized digital signage content in your space, connecting customers to a range of services with convenient user experiences. There are a variety of versions such as SuperSign Cloud, so discover and enjoy the version that best fits you.
