blends into its surroundings seamlessly and naturally.

Intuitive P-Cap Touch

By adding P-Cap touch sensor film to the display, the utilization possibilities expand to various industries where customer interaction services are demanding. Users could enjoy its fascinating content using their fingertips.

High Transparency

LG’s OLED technology makes the Transparent OLED Touch Signage have slimmer structure without backlight unit nor a liquid crystal layer, achieving high transparency even with P-Cap touch film. While clearly showing objects behind the screen, it overlays the relevant information right before them.

Protective Tempered Glass

Touching a display directly can cause damage or scratches. The tempered front glass protects product from such external impacts and its anti-shatter glass is designed to minimize customers’ injuries.

Enhanced Spatial Versatility

Experience the extraordinary with the state-of-the-art LG Transparent OLED Signage, which breaks down the barriers between the screen and surrounding environment, seamlessly connecting different spaces and people.
