Color This monitor reproduces 100% sRGB color, to match color from the original source. So whether you're viewing video from your HD camcorder or photos from your digital camera, sRGB support makes sure nature looks just as natural on your Samsung monitor as it did when you captured it.

Breakthrough picture quality

Breakthrough Picture Quality A faster response time and a mega dynamic contrast ratio of 5,000,000,000:1 results in clear, vivid colors and rich detail in light and dark areas.

Adjustable brightness with MagicEco™

MagicEco Save energy and your eyes with MagicEco™, which lets you adjust the brightness level from 100 percent to 75 or 50 percent.

MagicLux adjusts screen brightness automatically

MagicLux MagicLux measures ambient light and has four settings which automatically adjust the screen to optimum brightness. An intelligent intensity sensor detects the brightness around the monitor and adjusts levels automatically, helping to reduce eyestrain.

Automatic dual-monitor management

MagicReturn Never lose sight of your documents. MagicReturn™ automatically migrates content from both monitors to one monitor if you turn off or lose connection from your second monitor.

Crisp clear color from every angle with MagicAngle™

MagicAngle Enjoy the view from any direction. With Samsung's 5-step MagicAngle™ technology, images appear sharp and brilliant even when you're not right in front of the screen.

Adjustable brightness levels with MagicBright 3™

MagicBright3 MagicBright 3™ offers 3 preset modes: Text, Internet or Entertainment so you can get the optimum level of brightness, contrast and gamma correction in just one click.

Windows® 7 compatible

Windows 7 compatible Samsung monitors have been tested to meet all technical requirements for compatibility with Windows® 7 and the Windows® Color System standards for consistent and accurate color across mediums.

ENERGY STAR® Compliant

ENERGY STAR Compliant ENERGY STAR® rated, this monitor uses up to 33% less power. Plus, the Power-Off feature automatically shuts off the monitor when you're not using it, not only saving energy but also prolonging the monitor life. Being green never felt so good, or was this easy.

Rated EPEAT® Gold

EPEAT Silver EPEAT®-registered products have less cadmium, lead, and mercury for a safer environment. Plus, the higher efficiency helps by saving money, minimizing greenhouse gas emissions and making products easier to recycle. EPEAT Gold products meet all 23 required criteria plus 75 percent of 28 optional criteria.
