

Huion Kamvas 22 GEN 3 (GS2203) Graphics Tablet

Model: GS2203

Manufacturer: HUION

EAN: 6930444806118

Product Code: 967449

R13,821

Huion Kamvas 22 Gen 3 (GS2203) Graphics Tablet

The Huion Kamvas 22 Gen 3 is an advanced graphics tablet featuring a 21.5-inch 2.5K (2560 × 1440) display, a 90 Hz refresh rate, and PenTech 4.0 technology, delivering exceptional precision and smooth performance. With 16,384 pressure levels, $\pm 60^\circ$ tilt support, and color accuracy of $\Delta E 1.2$, it guarantees natural tracking of every movement and accurate color reproduction. The large working area (475 × 267 mm) and 250-nit brightness allow for comfortable creation even during long design sessions.

More space and a smoother image

The 21.5-inch IPS screen offers not only a high 2.5K resolution but also noticeably greater detail and workspace—up to 77.8% more displayed content compared to previous generations. Add to that a

brightness of 250 nits and a pixel density of 137 PPI. The 90 Hz refresh rate improves display smoothness by up to 50%, resulting in more natural line flow and better control over every movement. This is particularly important for dynamic sketching, animation, or retouching.

5 color modes and accurate color reproduction

The tablet offers as many as 5 color modes (sRGB, Rec.709, Adobe RGB, Display P3, and Black & White), allowing you to tailor the image to a specific application. Coverage of 99% sRGB and Rec.709, 94% Display P3, and 90% Adobe RGB guarantees a wide range of shades and their accurate reproduction. Each device also undergoes factory calibration (the report is included in the package) and ensures color accuracy at a level of ΔE 1.2. What's more, the tablet supports up to 16.7 million colors, ensuring your illustrations are vivid and eye-catching.

An even more natural pen experience - PenTech 4.0

PenTech 4.0 technology, combined with the PW600L pen, provides an experience similar to working with a traditional tool. With up to 16,384 pressure levels and a minimum activation force of 2 g, even the most subtle movements can be captured. An adjustable maximum force range (200–500 g), $\pm 60^\circ$ tilt support, automatic alignment to minimize cursor drift, and improved tip stability (0.35 mm retraction distance) allow for precise control over line thickness and character. Additionally, three side buttons with customizable shortcuts and a dust-resistant silicone grip enhance comfort, while the HV200 chip ensures high sensitivity and smooth pen operation. Also noteworthy is the reduced-size tip, which provides better visibility while drawing. Furthermore, the PW600L model operates without a battery—you don't have to worry about charging it!

Canvas Glass 2.0 - a clear image without glare

The use of Canvas Glass 2.0 with a nano-texture reduces glare, flickering, and graininess, resulting in greater comfort for the eyes. Full lamination eliminates gaps on the work surface, ensuring that the line appears exactly where the pen tip makes contact. The textured surface provides the feel of drawing on paper while increasing resistance to scratches and wear.

Refined design

The tablet is equipped with an adjustable VESA mount (100 × 100 mm), allowing you to comfortably adjust the working angle. The integrated cable management system helps keep your desk tidy and prevents accidental disconnection of cables. You can store the pen in an additional slot on the device or in a special holder with space for spare tips, so you always have all the necessary accessories at hand.

Ambient Backlight - Create an Aesthetic Workspace

The Kamvas 22 Gen 3 features a rear ambient backlight with a choice of up to 12 colors or Breathing Light mode. This allows you to customize the look of your workspace to suit your preferences or working conditions, such as during nighttime sessions.

Easy Setup and Wide Compatibility

The tablet can be connected to a computer via an HDMI or USB-C (full-featured) cable, offering great configuration flexibility. The device supports Windows (version 7 and up), macOS (10.12 and up), and Android (devices compatible with at least USB 3.1 + DP 1.2). It is also compatible with many popular applications, such as Photoshop and Illustrator. This makes it suitable for a variety of work environments—from home studios to professional applications.

Included

- Kamvas 22 Gen 3 graphics tablet x1
- Adjustable ST100D stand x1
- PW600L pen x1
- Standard pen nibs (stored in the pen holder) x10
- Pen holder x1
- Pen slot x1
- HDMI to HDMI cable (1.8 m) x1
- USB-C to USB-A cable (1.8 m) x1
- USB-C to USB-C cable (1 m) x1
- Power adapter x1
- Screwdriver and screw set x1
- Drawing glove x1

Manufacturer	Huion
Name	Kamvas 22 (Gen 3)
Model	GS2203
Color	Gray
Screen diagonal	21.5"
Resolution	2560 × 1440 (16:9) QHD
Pixel density	137 PPI
Refresh rate	90 Hz
Panel type	IPS
Active area	475,392 × 267,408 mm
Contrast ratio	1000:1
Brightness (typical)	250 nits
Response time (typical)	14 ms
Viewing angle (typical)	89°/89° (horizontal), 89°/89° (vertical), CR > 10)
Color gamut	> 130% sRGB
Color coverage	99% sRGB / 99% Rec.709 / 94% Display P3 / 90% Adobe RGB
Number of displayable colors	16.7 million
Surface finish	Canvas Glass 2.0
Full lamination	Yes
Color accuracy	ΔE 1.2
Pen model	PW600L
Pen technology	EMR (battery-free)
Pen resolution	5080 LPI

Pressure levels	16384
Accuracy	±0.3 mm (center), ±2 mm (corners)
Reading height	10 mm
Tilt	±60°
Activation force	2 g
Pressure range	200-500 g
Input voltage	AC 100-240 V, 50/60 Hz
Output	12 V, 3 A
Connectors	HDMI x1, USB-C x1
Stand model	ST100D
VESA compatibility	100 × 100 mm
Power consumption	≤ 32 W
Operating temperature	0°C to 40°C
Operating humidity	20-80%
Storage temperature	-20°C to 60°C
Storage humidity	10-90%
Dimensions	527.7 × 324.7 × 16-36.7 mm (without stand)
Weight	3.6 kg (with stand)
Compatibility	Windows 7 and later, macOS 10.12 and later, Android (USB 3.1, DP 1.2 and later)
