
LG 55VL5F-A video wall display LED Indoor/outdoor

Model: 55VL5F-A

Manufacturer: LG ELECTRONICS

EAN: 8806098600236

Product Code: 96785

R48,630

Incredible Immersion with Ultra-Narrow Bezel

The VL5F series provides all-encompassing screen immersion thanks to its ultra-narrow 3.5 mm bezel-to-bezel, while its outstanding IPS panel delivers a clear image from any angle. With its extremely attractive and highly functional design, it can be used to deliver advertising and information in a variety of business environments.

Achieving Incredible Immersion

Seamless Large Screens with Ultra-Narrow Bezel

The ultra-narrow bezel creates a visually stunning digital wall to effectively deliver dynamic content and immerse the viewers. The large screen it generates is enough to captivate the attention of

passersby.

Image Gap Reduction

The VL5F series includes an image improvement algorithm that can reduce image gaps among tiled displays when playing back videos. Objects located on the bezel boundaries are adjusted for a seamless viewing experience.

Vivid and Dynamic Picture Quality

Higher Viewing Angle

Large screens are usually positioned higher than human-eye level, making uniform picture quality essential for video walls. The viewing angle of the VL5F series is high enough to display vivid colors throughout the screen with no distortion.

Wider Viewing Angle

It is well known that LG IPS panel technology enables better control of liquid crystals, which in turn allows the screen to be viewed from virtually any angle. Because of this, the VL5F series captures the attention of and captivates more viewers with lifelike colors, regardless of their viewing position.

User Convenience

Easy Color Adjustment

Depending on the content, the color temperature of the display can be easily adjusted in increments of 100K using a remote control.

Simple White Balance Adjustment

In conventional video walls, white balance was adjustable only in “full-white” mode, but the VL5F series allows you to modify each value of grey scale to achieve more detailed and precise white balance adjustment.

User-Friendly Menu Structure

The menu structure has been optimized for commercial use. It simplifies approach flows and groups similar functions together, adopting a more intuitive GUI for ease of use. This way, users can avoid having to do trial-and error when exploring desired functions and managing displays.

Intuitive GUI

The GUI(Graphic User Interface) is carefully designed with a four-way navigation remote control that lets users easily switch to other settings. Also, it adopts a larger font for better visibility, which is necessary when users want to control displays from relatively far distances.
