

Philips Signage Solutions Multi- Touch Display 65BDL3052T/00

Model: 65BDL3052T/00

Manufacturer: PHILIPS

Product Code: 96794

R52,915

Experience amazing interactivity with true Multi-Touch

A brand new level of interactivity is now available thanks to integrated touch technology. More flexibility and optimum simultaneous touch performance coupled with excellent operability opportunities give you the ultimate in user interaction. Multi-Touch displays are equipped with automatic touch recognition. The USB connector is HID-compliant, providing true plug-and-play operation.

SmartPower for energy saving

The backlight intensity can be controlled and pre-set by the system to reduce the power consumption by up to 50%, which saves substantially on energy costs.

Save and play content with internal memory

Save and play content with internal memory. Upload your media into the display and playback content immediately. Working in conjunction with the internal browser, it also serves as a memory cache when streaming online content. If the network ever fails, the internal memory keeps content running by playing a cached version of the content, ensuring that your media stays up even if the network goes down.

CMND: Take control of your displays

A robust display management platform, CMND puts the power back into your hands. Update and manage content with CMND & Create or control your settings with CMND & Control. It's all possible with CMND.

Android: Run your own app or choose your favourite app to run

With Android integrated into the touch display, you can work with the most developed OS on the planet, and save your own app directly into the display. This also means, for built-in apps like the browser, it's touch-capable straight out of the box. Just connect the power and you've got immediate interactivity. You can also use the built-in scheduler to display your apps and content based on the time of day. And, using the auto orientation feature, switching from portrait to landscape content is as simple as turning the display.

4K Ultra HD: resolution like you've never seen before

See your Signage Solutions like never before thanks to four times the resolution of a conventional Full HD display. 3840 x 2160 pixels provide an image so refined, so lifelike, it's a window to a new world.

Anti-glare glass with low optical parallax

With this integrated touch display, the anti-glare glass with low optical parallax allows for the most immersive touch experience. With little to no glare and low reflection on the display, images are
