Interactive display

This interactive display, powered by Android 14, has up to 50 touchpoints, maximising engagement and collaboration. Toughened anti-glare and anti-fingerprint glass are ideal for heavy daily use in busy environments.

OPS slot allows PC embedding without cabling

Integrate a full-power Windows PC or Chrome OS module directly into your Philips Professional Display. The OPS slot contains all the connections you need to run your slot-in solution, including a power supply.

Philips Wave-ready for remote display management and control

Your Philips Wave-ready display enables you to manage and maintain this device remotely, wherever you are, whenever you choose. This evolutionary cloud platform puts you in full control, with simplified installation and setup, monitoring and controlling displays, upgrading firmware, managing central content needs and setting power schedules. Saving you time, energy and environmental impact.

Google EDLA certified

Improved user experience, students' engagement, and security and app integration is all part of the service. Directly benefit from Google apps and services natively, including Google Classroom, Docs and Slides, seamlessly integrate Chromebooks and other Android-native devices for simpler and more intuitive teaching and learning.

Built-in ambient light sensor

Built-in ambient light sensors contribute to energy savings by automatically adjusting the screen brightness to the surrounding lighting conditions.
