R8,717

Faster, Stronger, Better

AXE5400 Tri-Band Mesh WiFi 6E System

Deco XE75 Pro

Upgrade Your WiFi to 6E

WiFi 6E utilizes the capabilities of 6 GHz to enable high-bandwidth applications that require faster data throughput such as high-definition video streaming and virtual reality, as well as lower latency connectivity for online gaming applications.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

- More spectrum, lower latency
- Wider channels, more throughput
- Congestion-free, less interference
- Supports all WiFi generations and devices

Engineered for Blazing Fast Speed

Experience ultra-fast Wi-Fi with more connected devices thanks to the brand-new 6 GHz band. The added 160 MHz channels prevent competition over bandwidth and drops in speed.

Cover Every Corner of Your Home

Deco XE75 Pro eliminates weak signal areas with clearer, stronger whole-home WiFi generated by BSS (Base Service Station) Coloring and Beamforming technologies as the WiFi dead zone killer. Thus, there will be no more searching around for a stable connection.

Fits Any Type of Your House

Expand Anywhere You Want

Brick and cement. Floors and ceilings. Walls and hallways. All of them make it tough for WiFi to travel across your home. Deco units work together to move WiFi around the obstacles in your home and deliver complete coverage.

Engineered for

More Devices

Deco products are aimed to dramatically improve capacity and efficiency in traffic-dense environments. No matter how many screens or devices are on at once, everyone is able to enjoy a more efficient network that loads faster without dragging down performance.

Lightning-Fast Wired Connections

A 2.5 Gbps port and 2 Gigabit ports allow you to take full advantage of your broadband speed. Plug your PCs, smart TVs, or game consoles into the ports for blazing-fast wired connections.

Intelligent Networking for a Smarter Home

Deco uses its custom algorithms to automate the connections on your network, ensuring the strongest possible signals at all times.

Seamless Roaming with One Wi-Fi Name

TP-Link Mesh means Deco units work together to form one unified network. Your phone or tablet automatically connects to the fastest Deco as you move through your home, creating a truly seamless WiFi experience.

Simple. Easy. Yet Powerful.

Setup and manage your network anytime and anywhere on the friendly TP-Link Deco app. In just three easy steps your entire home can be blanketed in strong and reliable WiFi.
