ABS keycaps with OMA profile provide a pleasant texture.

Hot-swap system allows for easy and quick switch replacement, enabling you to create your optimal combination.

Two additional buttons and an aluminum wheel ensure convenient multimedia control.

Brushed and anodized aluminum plate increases keyboard durability and absorbs vibrations for greater comfort.

100% Anti-ghosting and N-Key Rollover functions guarantee that all simultaneous key presses are registered, regardless of quantity.

RGB lighting with 16.8 million colors, customizable for each key with additional side lighting zones.

Detachable soft USB Type-A to Type-C cable.

Software for creating and saving macros and other settings.

The keyboard supports custom firmware based on QMK with the possibility of settings through the VIA interface. Get an even greater range of settings and support for all operating systems.
