

EIZO FlexScan FLT computer monitor 60.5 cm (23.8") 1920 x 1080 pixels Full HD LCD Black

Model: FLT-BK

Manufacturer: EIZO

EAN: 4995047068907

Product Code: 972366

R9,443

The FlexScan FLT is EIZO's most sustainable monitor with Class A rank on the European energy label. Thanks to a particularly energy-saving LCD panel and unique energy-saving technologies, the typical power consumption is just 6 watts. With its EcoView features, the 23.8-inch monitor with Full HD resolution can even fall below this value. The FLT displays information about the current power consumption on demand. But it's not just in operation that the monitor scores in terms of sustainability. Its housing is made from 95% recycled plastic, which reduces waste, conserves resources and promotes the reuse of materials. The packaging is also made from recycled materials. At the same time, the packaging size has been reduced, which reduces greenhouse gas emissions during transportation by increasing charging efficiency. The monitor's USB-C connectivity enables a laptop to be connected with just one cable and, in addition to video and USB signals, also transmits a power supply of up to 60 watts. The FLT itself can also draw its power supply from a computer or
