Switches with instant response, adjustable zero debounce, and a lifespan of 100 million clicks ensure precise execution of every command.

The TTC Gold dustproof encoder ensures reliable operation of the scroll wheel.

Dynamic RGB lighting effects on the back of the mouse add style to your entire setup.

Three connection modes: 2.4GHz, Bluetooth, or wired via USB port — choose based on your current conditions and tasks.

600 mAh battery provides long-lasting operation even during intensive use.

The durable textured coating provides a secure grip on the mouse and resists fingerprints.

Smooth and fast gliding thanks to large-area skates made from 100% PTFE for maximum maneuverability.

Easily customize the mouse settings to suit your needs with proprietary software.
