precision of every micro-movement.

MSI Diamond Lightgrips features an exclusive double-injection diamond-patterned anti-slip surface that allows gamers to hold the mouse fimly in hand, while showcasing unique RGB illumination fully customizable through MSI Center.

THE PINNACLE OF PERFORMANCE

The PixArt PAW-3395 optical sensor combined with cutting-edge technologies ensure the finest movements and most flawless tracking.

HIGH END PAW-3395 SENSOR

The PixArt PAW-3395 optical sensor is designed to dominate the game delivering up to 26,000 DPI, 650 IPS, and 50G acceleration.

MOTION SYNC

Motion Sync can synchronize the signal from the mouse at the exact intervals your pc extracts information to strengthen the accuracy of the movement.

NOMINAL LIFT-OFF

Sets the mouse lift-off sensing distance to 1mm resulting in more accurate movements while preventing conventional cursor drift from mouse lift-off. This function can be further optimized when using an MSI mouse pad.

2 ADVANCED CHARGING SOLUTIONS

The CLUTCH GM51 LIGHTWEIGHT WIRELESS supports two advanced charging solutions. MSI Snap Charging (wired) offers 3x faster charging for when you’re in a hurry to get back in the game. The included MSI Charging Dock offers a convenient standard charging solution while also doubling as a display for the mouse.

ERGONOMIC & LIGHTWEIGHT

The ergonomic shape offers comfort in hand while the lightweight structure reduces fatigue and enhances the gaming experience.

RIGHT HANDED COMFORT

Inheriting the classic right-handed design of the GM50, comfort has been further improved by fine-tuning and optimizing the grip to achieve better palm support and long session comfort.

LIGHTWEIGHT DESIGN

The lightweight structure reduces up to 25% of extra plastic reducing the weight to only 85g to allow users to enjoy a faster and smoother gaming experience.

TRI-MODE WITH MSI SWIFTSPEED

Choose your preferred connection, including MSI SWIFTSPEED 2.4G wireless technology, Bluetooth, and wired mode. MSI SWIFTSPEED offers an ultra-stable and powerful connection while also providing low latency performance allowing gamers to conquer their enemies.

UP TO 150 HOURS OF BATTERY LIFE

A high-capacity 550 mAH battery inside the mouse offers the advantage of a long lifespan and increased stability.

MSI SPEEDSHIFT TECHNOLOGY

MSI SPEEDSHIFT allows gamers to achieve a balance between speedy competition or power saving by tuning the mouse's correction accuracy and sliding distance accuracy in three modes via MSI Center.

NVIDIA REFLEX ANALYZER

VICTORY MEASURED IN MILLISECONDS

NVIDIA Reflex Analyzer delivers the ultimate competitive advantage, while capturing end-to-end
