This mouse’s high precision 800 – 4.000 dpi optical sensor offers you great speed and accuracy. Whatever game you’re playing or enemy you’re facing, there is always the right setting. With just one click on the speed select button, the Locx gaming mouse is ready for what is coming.

Idle mode

When you don't use the mouse, the mouse will go into an attractive 4 colour breathing effect.

Breathing colours

The unique design of the alluring top cover illumination will draw your enemies in your web. The colours are connected to your dpi settings; 800 dpi gives you a breathing red light, 1200 dpi comes with a breathing blue light, 2400 dpi for green and 4000 dpi gives you fuchsia illumination.

Advanced design

This gaming mouse has a symmetrical design which makes it suitable for all gamers, left or right-handed. It also has textured sides for extra grip during long gaming sessions. To prevent your cable from twisting, the mouse has a 1.8m nylon braided USB cable. Get ready for some gaming fun!
