Using public WiFi networks puts your private data at risk. With M6, you can use your own secure WiFi network anywhere with no worries.

Superior performance vs. a mobile phone hotspot

Get exponentially more speed and connectivity than a mobile phone hotspot and stop draining your battery.

Use 5G WiFi for your home or business

M6 is powerful enough to be a primary or backup internet connection for your home or business. Always stay connected and protected, even during broadband outages.

Double your WiFi coverage

Remove M6’s battery and use the power adapter to boost WiFi coverage and performance for your home or business.

Ultra-fast and reliable wired connections

When you need incredible speed and reliability, Nighthawk delivers. Blaze through your most important tasks with wired speeds up to 5Gbps over USB-C and 1Gbps over Ethernet.

All-day power

Nighthawk M6 offers a powerful battery with up to 13-hours of battery life††, so you can rely on it for even the most challenging days, without worry.
