

Techly Mini Repeater 300Mbps Wall Wireless Amplifier Repeater7 I-WL- REPEATER7

Model: 028566

Manufacturer: TECHLY

EAN: 8054529028566

Product Code: 973264

R1,090

The Wi-Fi AP / Router I-WL-REPEATER7 is mainly used for providing free WiFi service in large areas such as factories, homes, offices or squares. It's able to repeat an existing 802.11n wireless signal and extend it to a larger scale, where a router or access point alone could not achieve. I-WL-REPEATER7 supports wireless networking at 2.4 GHz and is capable of supporting transmission speeds up to 300Mbps. It has 2 antennas providing even better wireless performance, increased transmission speed and signal stability by automatically avoiding channel conflict through the channel selection function.

Features
