# Zyxel GS1350-26HP-EU0101F network switch Managed L2 Gigabit Ethernet (10/100/1000) Power over Ethernet (PoE) Grey

Model: GS1350-26HP-EU0101F

Manufacturer: ZYXEL

EAN: 4718937604463

Product Code: 973865

## R9,354

## Just For Surveillance

Crafted for CCTV, Zyxel introduces the brand-new GS1350 smart managed switch for surveillance applications

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. ## New outlook

Coated in titanium grey, the GS1350 excels with an eye-catching identity dedicated for surveillance Switch.

## Specialized PoE software features for surveillance

Detect and recover failed IP cameras and powered devices automatically with customizable granular parameters suitable for any types of devices and scenarios.
Delivers nonstop power to keep cameras in operation, even if switch under-goes maintenance for firmware or configuration updates, significantly reducing reboot time.

## Easy for long-distance deployment

Traditionally, PoE switch delivers power and data within the distance of the 100 meter limitation. The GS1350 series fulfills the need to deploy IP camera or power devices using existing Cat 5e cable to distant locations. By enabling extended-range mode, instantly achieve distant deployments up to 250m. Save your money and effort with simply one PoE.

## High power budget, intuitive front panel design

The GS1350 series includes four models with large power budgets of up to 375 W accommodating the requirement for powering up multiple IP cameras. The intuitive LED indicator on the front panel allows inspecting real-time PoE status. In addition, the one-touch “Restore” button on GS1350 Series helps effortless recovery from misconfigurations.

**Unique hardware, robust design**

## Stabilized power

Filters electrical noise and surge to ensure supplying stable power to PoE and the system.

## Selected power supply

2X Surge and ESD protection.

## Isolated Circuit Design

Provides protection to isolate power surges from Ethernet and power supply.

## Intelligent System Monitor

Keeps the system operational from anomalies.

## Patented Ethernet Protection

- 4X Surge protection.
- 2X ESD resistant.
