IRDM PRO DDR4 Deep Black memory modules are designed for gamers and enthusiasts. It is a perfect solution designed for “next-gen” processors, which premiered at the end of 2020. Modules are built using specially selected memory chips and 8-layer black PCB. All of it is enclosed in stylish, heat-dissipating heatsinks available in the new Deep Black colour.

The matte, black, uniform memory heatsink fits the current trends, and that is why IRDM PRO Deep Black will work well in custom PCs, built with a focus on purity and aesthetics of the form. The heatsink bears a minimalist brand logo, made in a semi-matte black color. Keeping the entire module in shades of black adds character to it, which will be appreciated by gamers and enthusiasts opting for stylish solutions.

ENTER THE GAME

IRDM PRO DDR4 is available in single module capacities of 8GB and 16GB and Dual Channel configurations of 16GB and 32 GB. The frequency of 3600 MHz provides the speed and reliability expected by gamers, professionals and overclockers.

HIGHEST QUALITY = LIFETIME WARRANTY

All IRDM PRO memory modules are manufactured in Poland (Europe) with carefully selected components and each stage of production is finalized by multi-stage tests. The manufacturer’s lifetime warranty is a guarantee of quality.

MINIMALISTIC DESIGN

IRDM PRO modules are equipped with low-profile, improved heatsinks, dissipating heat and ensuring stable operation of the computer. Modules are available in three unique colour versions: Pitch Black, with a dominant black matte coating, Hollow White, distinguished by the white colour of the heatsink and PCB, and also the latest – Deep Black, an entirely black solution.
