Ergonomic design with swiveling ear cups and a UV-coated earcups, providing a pleasant tactile feel and long-lasting durability.

Powerful 40mm drivers with Hi-Res Audio certification

provide clear and detailed sound, allowing you to fully immerse yourself in gaming or enjoy your favorite music.

True stereo sound — thanks to the unique driver cavity design.
The isolated driver cavity reduces sound distortions and vibrations, ensuring cleaner and more accurate audio reproduction.

The Hybrid ANC active noise cancellation system is powered by a combination of four microphones and a dedicated processor, delivering seamless noise reduction for both 2.4GHz and Bluetooth wireless connections.

ClearScan™ technology continuously scans the wireless spectrum and selects the optimal frequency, ensuring stable signal performance even in congested environments.

Spatial Audio and Head Tracking technologies deliver immersive sound and precise positioning in games.

Stay in the game while taking calls! The headset supports Bluetooth phone connectivity with ENC noise cancellation for crystal-clear conversations.
Built-in controls on the ear cup make it easy to manage calls, adjust volume, and access essential functions effortlessly.

24-bit DAC with up to 96 kHz sampling rate and Hi-Res certification combined with a 32-bit dual-core DSP delivers top-tier audio quality. With precise reproduction of even the smallest nuances and efficient signal processing, you’ll experience deep immersion in music, gaming, or movies, enjoying crystal-clear and detailed sound.

The detachable high-sensitivity microphone ensures clear and natural voice transmission for team communication or streaming. And when removed, the headset transforms into a lifestyle audio device without sacrificing functionality! Thanks to the additional built-in microphone, you can still take phone calls even with the main mic disconnected.
An innovative low-degradation lithium-ion battery with a capacity of 850mAh delivers up to 45 hours
