

NATEC NKL-0967 Natec Keyboard TROUT SLIM USB US layout black

Model: NKL-0967

Manufacturer: NATEC

EAN: 5901969408027

Product Code: 975194

R724

The Natec Trout keyboard is a smart combination of strength and functionality enclosed in a slim body. The solutions, such as covering the keys with a protective layer (PU coating), make it even more resistant to abrasion, while the keyboard construction itself is resistant to spills in the case of unforeseen accidents in the office or at home. The convenience of use is also ensured by a slim and flat keyboard profile, feet adjusting the height of the device and 12 multimedia keys to facilitate the use of a number of functions while using the computer.
