

UBIQUITI UISP- Console-EU Controler Switch Gateway 2x 10G SFP+ 9x GbE RJ45

Model: UISP-CONSOLE

Manufacturer: UBIQUITI NETWORKS

Product Code: 982111

R7,008

The Ubiquiti UISP Console is designed to enhance network management with its robust features and efficient performance. Equipped with a powerful Quad Core ARM CPU running at 1.7 GHz and 4 GB of DDR4 SDRAM, this switch ensures smooth operation for demanding network environments. It supports various connectivity options with 9 ports for 10/100/1000 networks and 2 SFP+ ports for 1 Gigabit or 10 Gigabit connections, allowing versatile network configurations. The device operates in a wide temperature range from -10°C to 50°C and can handle humidity levels from 5 to 95%, making it suitable for diverse environments. With a solid construction featuring both plastic and steel housing, the UISP Console comes with ESD protection rated for 8 kV contact discharge and 15 kV air-gap discharge, ensuring reliable operation in challenging conditions. It includes a rack mounting kit for convenience and can be managed easily to optimize network performance. The substantial 128 GB flash memory provides ample storage for firmware and configurations, making it a practical choice for network professionals seeking a reliable and efficient solution.
