As a highly upgradable portable hard drive – and the core of the GoFlex Storage System – the GoFlex ultra-portable drive gives you USB 2.0 transfer speeds and the flexibility you need to extend your digital life wherever you go.

Automatic backups that are always secure

With the GoFlex ultra-portable hard drive it is easy to manage your backup schedules, encrypt your files and view your drive's statistics.
- Ensures automatic backup of all the files and folders on your computer;
- Secures your backed up files and protects your privacy with powerful encryption software;
- Includes the Seagate® Dashboard management tool for easy management of backup schedules, file encryption and at-a-glance drive statistics, including available capacity.

Flexibility is built in

Seagate has created the GoFlex Storage System – which includes the GoFlex ultra-portable drive – to make it easy for you to upgrade your interface for faster transfer speeds, and access your content on your network, your TV and everywhere you go.
- Offers upgrade cables and kits that make it easy to upgrade from USB 2.0 to USB 3.0, eSATA or FireWire® 800 for up to 10x faster transfer speeds for your large files and HD films;
- Extends your digital life so that you can access and share your files from anywhere by pairing your drive with the GoFlex Net media sharing device;
- View your films and photos on your TV by pairing your drive with the GoFlex TV HD media player
- Learn more about how you can customise your GoFlex ultra-portable drive.

Works interchangeably on both PC and Mac computers

Whether you have a PC or a Mac – or if you go back and forth between the two – you can access and save files on the same portable hard drive at any time without reformatting.
