Zyxel WAX610D-EU0101F wireless access point 2400 Mbit/s White Power over Ethernet (PoE)

Model: WAX610D-EU0101F

Manufacturer: ZYXEL

EAN: 4718937612970

Product Code: 987606

R8,659

True WiFi 6 experience for all

The WAX610D is designed to deliver the true WiFi 6 experience to users for various types of applications. Featuring 6 spatial streams (4x4:4 in 5GHz, 2x2:2 in 2.4GHz), OFDMA and MU-MIMO capabilities, the WAX610D can provide fabulous efficiency for your wireless networking.
An access point that fits your need

We understand that mounting an access point to the ceiling isn’t always possible due to the challenging environments like warehouses, historical buildings or stylish hotels where the aesthetics of the building are a priority. The WAX610D is equipped with a dual-optimized antenna that is selectable, allowing the access point to be mounted on the wall or on the ceiling without compromising on performance and coverage.

Hassle-free upgrade

To meet the growing demands for WiFi connectivity, the WAX610D enhances the network capacity with 2.90 Gbps WiFi speed and 2.5 Gbps multi-gigabit Ethernet port, which allows multi-gigabit speed run on the existing infrastructure without the need of re-cabling. The WAX610D enables organizations such as schools, hotels, and retail stores to upgrade to the latest WiFi 6 technology easily without breaking the bank.

Manage it your way!

The WAX610D comes with the support of NebulaFlex Pro, which offers the full flexibility for users to easily switch between cloud-managed, controller-managed, and standalone modes. You can choose the appropriate managed-mode best suited for your needs.
